Mrs. Lois Haas
18119 Fireside
Spring, Tx 77379

Dear Mrs. Haas:

Enclosed you will find the Lifetime Warranty Certificate for the Cable Lock Pilings we installed on your home. I wanted to take this opportunity to thank you for entrusting Atlas with the care of your home. I hope the work met your expectations. If there are any problems, I hope you will contact our office.

I also wanted to inform you about our referral program. We pay you \$100 for every person that you refer to Atlas and we do the work on their home. Some people have nearly covered the cost of their repair through our referral program. Thank You again.

Sincerely,

H.L. DeShazer
President

Mrs. Lois Haas
18119 Fireside
Spring, Texas 77379

Dear Mrs. Haas

As per your request, the following are the findings of the inspection I conducted at your residence on March 10, 2003. Using the same reference point as was used on 8-27-02. Elevations were taken throughout the house. The data from these readings show little to no movement has occurred in this time span and the slab appears to be stable. The electronic elevation measurement instrument that was used to obtain this data was not used at the time the 1997 exterior work was performed nor was it used during original construction. I would agree with the other inspection that a low area does exist in the hallway near the hall bath and continues through the front bedroom. My findings indicate that the foundation exterior was raised to match this interior elevation in 1997 and has been stable since that time. My opinion is that a need for foundation work at this time is marginal.

If any additional information is needed please contact our office

Sincerely,

Bill Elam
